

- NOTES**
1. This drawing is copyright. Refer to details above.
  2. This drawing is only to be used for the purposes of work to figure dimensions only, do not scale.
  3. This drawing is to be read in conjunction with all other drawings.
  4. Materials and workmanship shall comply to the appropriate British Standards and Codes of Practice unless otherwise stated.
  5. The activities required to construct the work, shown on drawings clearly marked (BMS) BOD, may be subject to the Regulations 2007. The Contractor and Client must ensure that they are adequately conversant with these regulations and legislation and observed at all times.
  6. Design Risk Assessment

A risk assessment relating to potential hazards associated with the construction, operation and demolition of the work designed by H2OK Systems has been undertaken. Risks so identified have been eliminated by design, wherever practicable. The situation with regard to residual risks is as follows:

The work is of low complexity with low level of risk, it is considered that there are no significant residual risks that require further action.
